Amelia, OH 45102

ATTENTION: Steve Light

Dear Steve:

Count us among your list of satisfied customers.

Almost two years ago, we embarked upon a project to build a church on Amelia Olive Branch Road. When we were putting together our budget, we contacted a number of suppliers to establish a rough cost estimate. William Light Paving was most helpful and generous among the paving suppliers we called. When the time came to "make it real," you were once again helpful, courteous and responsive.

We are very pleased with your work, and we were thrilled to see that you exceeded expectations by grading the lot – over and above the requested services – and on a Saturday no less. Over the course of the project, we have experienced the hand of God in delivering volunteers and contractors who have pitched in above and beyond reasonable commercial expectations. We include Light Paving among that group of God sent folks.

We look forward to seeing you again in the spring for final paving. In the meantime, thanks and have the most blessed of holidays this season.

A handwritten signature in blue ink that reads "John Malone".
